PAPER 2 PAPER
RECYCLABLE

If it's paper, it must be paper.

We introduce **100% ECO friendly** and truly **sustainable** products produced from the paper board without a traditional plastic coating layer.

Paper2Paper products meet all the requirements in terms of liquid resistance and stiffness.

Paper2Paper products which are made from cardboard with water-based coating are better in comparison with traditional paper cups with plastic (PE) or bio (PLA) coating.

See by yourselves:

Paper cup coating material	Is the product compostable?	Is it recyclable with paper?	Can it be collected in the existing waste collection infrastructure with no extra investments?
PE	NO	NO	NO
PLA	YES, industrial only	NO	NO
Water-based coating	YES	YES	YES

CERTIFICATE

Recyclability of Packaging

PAPER 2 PAPER

The company receives the certification of recyclability for the following packaging.

Designation	
Plastic-free paper cup	
Test result	
Allocation to path/specification:	Mixed waste paper, Sort No. 5.01 (DE)
Assessment via path/specification:	Mixed waste paper, Sort No. 5.01 (DE)
Recyclate (final product):	Fibres

In accordance with the test results the potential recyclate yield of the packaging amounts to 100%. According to the CHI standard the recyclability of the packaging amounts to:

AAA* (CH, EU, NO, UK)

This certificate (No. 2139-2019-000722-W1) is valid until the **30.06.2021** (1 year upon issue) relating to the countries identified in the assessment report. This certificate will lose validity in case of qualitative or quantitative changes of packaging components.

* high grade recyclable (> 95%)
